This is to let you know that I and my family are strong supporters of the Lynn Canal Highway Project, and have been for many years- since I first heard about it in a conversation with Red Swanson. We are also what I would consider an environmentally aware family and are avid kayak and outdoors people. I know that the road can be constructed in an environmentally sensitive, creative manner that will respect our heritage and environment and open new opportunities for our children, in all aspects of our lives.
